Re: WC Docket No. 10-90. Notice of Existing Broadband Coverage Within
CenturyLink Proposed CAF Phase 1 Round 2 Deployment Census Blocks

Pursuant to Public Notice DA 16-1072, this letter serves as notice to the FCC and to CenturyLink that NextGen Communications (FRN 0004381729) is a communications provider currently offering qualifying broadband service in some of the 9,703 "unserved" and "underserved" census blocks CenturyLink has recently proposed to serve using CAF Phase1 incremental support.

NextGen Communications offers fixed Internet speeds of 3 Mbps downstream and 768 kbps upstream or higher service in the following census block(s):

550339702001100
550339702001102
550339702001117
550339702001118
551091207002032

As a result, the above census block(s) should be considered "served" for the purposes of CenturyLink's upcoming 54.312(c)(4) certification. If you have any questions, please contact me at roxih@interstatetelcom.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Roxi Hacker", is written over a large, stylized circular flourish.
